

Dr. Kevin Rose has the most important quality to look for in a plastic surgeon — attention to detail.

## The Rose Clinic for Plastic & Migraine Surgery

Kevin G. Rose, M.D. • [www.TheRoseClinic.com](http://www.TheRoseClinic.com) • (801) 375-ROSE (7673)  
320 W. River Park Dr. #245, Provo

THE  
**ROSE**  
CLINIC  
FOR PLASTIC  
& MIGRAINE  
SURGERY, P.C.

**D**r. Kevin Rose has a passion for paying attention to the smallest detail — a great quality to look for in your plastic surgeon! He loves being able to work individually with each reconstructive, cosmetic or migraine patient. Dr. Rose is a board certified plastic surgeon and a member of the American Society of Plastic Surgeons. The Rose Clinic started in

Springville, but the needs of the practice quickly outgrew the space available. Now located in Provo above Riverwoods Surgery Center, The Rose Clinic enjoys a new state-of-the-art facility where their patients' needs can all be met in one convenient location.

Patients often comment on how comfortable they feel from their initial phone call through their consultation, surgery and follow-up care.

The staff at The Rose Clinic understands how personal a visit to a plastic surgeon's office can be. As a result, Dr. Rose's staff takes the time to build trust and

answer every question a patient may have. Knowing Dr. Rose and his staff will be there, and that they deeply care, helps patients enjoy their entire experience.

Dr. Rose specializes in all areas of cosmetic or plastic surgery. Procedures like breast augmentation, tummy tuck and liposuction are common and can be done individually or together. Dr. Rose is also the only surgeon in the area trained in the surgical relief of migraine headaches, which reports a 92 percent success rate!

Call 801-375-ROSE (7673) or visit online at [www.TheRoseClinic.com](http://www.TheRoseClinic.com) to see what everyone is so happy about!

If you are thinking about any cosmetic procedure, check the qualifications of your doctor. Ask them if they are a board certified plastic surgeon with experience in the area you are considering. — Dr. Kevin Rose
